Call 82222 or 911 for Emergencies

Identify all yellow phones in your building to call for emergencies.

Campus police officers will respond.

Campus police officers work closely with Student Health Services and have EMT's (Emergency Medical Technicians) on staff to respond to medical emergencies.

Evacuate the building for all alarms.

In the event of a major emergency, i.e. earthquake, shooting, etc., evacuate immediately and go to Cox Stadium or try to find a safe place until a campus police officer brings you to safety.

Assist persons with disabilities in evacuations - take them to the nearest stairwell and notify the Department of Public Safety.

Safety coordinators in each building are trained to assist in an evacuation and wear orange vests that read "Safety Officer".

Follow your intuition - call the Department of Public Safety if you have a concern for your safety or the safety of others.

Campus police officers work closely with Counseling and Psychological Services to assist with difficult persons.

Review the SFSU website for the campus emergency multihazard procedures: http://www.sfsu.edu/~sfsupd
