Syllabus

Instructor: Leonhard Blesius
Office: 283 HSS Dept. of Geography
Phone: 415-405-2144  Email: lblesius@sfsu.edu
Office hours: Tue 11-12/Th 2:30 – 4:30

Course outline, objectives, and student learning outcomes:
This course builds introduces advanced and/or specialized digital image processing (DIP) functions. This includes techniques necessary for using satellite images effectively in high energy environments, for example orthorectification and corrections for the topographic effect on radiometric values. In addition, more advanced classification techniques and methods to evaluate classification accuracy are introduced. These topics are accompanied by exercises in ERDAS Imagine that try to broaden the understanding of these functions. The second part of the class introduces a radically different concept in image processing, object-oriented image analysis, and introduces Definiens eCognition. This software will provide an alternative to the traditional pixel-based analysis, being useful particularly with high resolution satellite imagery and aerial photography. Upon completion of the course, students should have a good understanding of remote sensing techniques, be proficient in a widely used DIP software (ERDAS Imagine), and have a working knowledge in the latest DIP software (Definiens).

Evaluation:
Exercises: 7*5% = 35%
Project (paper, presentation): 30%
Midterm 1: 15%
Midterm 2 (take home): 15%
Field trip/workshop (TBA) 5%

Grades (+/- will be used):
A: 90 – 100%
B: 75 – 89.99%
C: 60 - 74.99%
D: 50 – 59.99%
F: <50%

Methods of instruction, Exams and assignments
Tuesdays will be lectures, Thursdays is reserved for exercises. Exercises are due one week after they have been assigned. Midterm 2 is a take-home exam. It is a 3 page (1 ½ spaced, Times New Roman font size 12) research proposal for your final project, in which you indicate your question, identify literature pertaining to the question, and outline your remote sensing methodology to answer the question. Final project paper is then a 10 page report (see specs above). The report should include relevant figures and literature pertaining to the project. Participation in 2 of 3 one day field trips (TBA) is expected.

STUDENTS WITH DISABILITIES who need reasonable accommodations are encouraged to contact the instructor. The Disability Programs and Resource Center (DPRC) will facilitate the accommodation process for individuals with verified disabilities. If a student is a DPRC client, he/she must present an RAV (Reasonable Accommodation Verification) AND an EAR (Exam Accommodation Request) to the instructor at the beginning of the semester. Students are responsible for submitting the completed EAR form to the DPRC. Any changes to the accommodation require prior approval by a DPRC specialist. Changes cannot be requested during an exam. The DPRC is located in the SSB-110 and can be reached by telephone (voice/TTY 415-338-2472) or by email (dprc@sfsu.edu).

STUDENT DISCLOSURES OF SEXUAL VIOLENCE. SF State fosters a campus free of sexual violence including sexual harassment, domestic violence, dating violence, stalking, and/or any form of sex or gender discrimination. If you disclose a personal experience as an SF State student, the course instructor is required to notify the Dean of Students. To disclose any such violence confidentially, contact: The SAFE Place - (415) 338-2208; http://www.sfsu.edu/~safe_plc/
Counseling and Psychological Services Center - (415) 338-2208; http://psyservs.sfsu.edu/
For more information on your rights and available resources: http://titleix.sfsu.edu

PLAGIARISM OR CHEATING is always rewarded with an F. Details about plagiarism at SFSU can be found at: http://online.sfsu.edu/~rone/StudentHelp/Plagiarism.html. All submitted work should be that of the student whose name appears on the work.

COURSE INTERNET RESOURCES: The course iLearn site is a critical resource for this class. You will need regular (at least weekly) access to a computer and internet for course updates, online quizzes and access to all course materials. Computer labs on campus: <http://www.sfsu.edu/~doit/labs.htm>

CLASSROOM PARTICIPATION: In-class hours are MANDATORY and class begins ON TIME. Consistent absence is always reflected in final grades. Classroom behavior is common sense: out of respect for the learning environment, please turn off all cell phones, beepers etc, keep classroom discussion to the topic and show respect and tolerance to your fellow students at all times.

DEADLINES:
Faculty DROP deadline 8 February (M)
Student DROP/AUDIT/ADD deadline 9 February (T)
Last ADD (by exception) deadline 28 February (T)
CR/NC deadline 20 March (Su)
Do not select CR/NC if a course is required for your major.
CR/NC petitions after Mar. 20 seldom granted. Retroactive petitions (CR/NC to letter or vice versa) not permitted.
Withdrawal for “serious & compelling reasons” 10 February (W) – 28 April (Th)
Withdrawal (by exception) (Serious & compelling; documentation required) 29 April (F) – 17 May (T)
NO WITHDRAWALS permitted after May 17.
