Date	Disorder Observed	Length of Observation	Signature of Supervisor	ASHA CCC #

_____ _____

Bishop J. Graham, M.S., CD Clinic Coordinator
ASHA CCC# 01081121; CA License #SP8858

Date

Applicants for the audiology or speech-language pathology certificate must complete at least 25 clock hours of supervised observation prior to beginning the initial clinical practicum. Those 25 clock hours must concern the evaluation and treatment of children and adults with disorders of speech, language, or hearing. The observation experience must be under the direct supervision of a qualified clinical supervisor who holds current ASHA certification in the appropriate area. *ASHA Certification and Membership Handbook*, 2000, pp. 21-22.
