MATH 226 Calculus I (4)

MATH 227 Calculus II (4)

PHYS 111/112 General Physics I/Laboratory (3/1)

PHYS 121/122 General Physics II/Laboratory (3/1)

CHEM 215/216 General Chemistry II (3/2) Prereq: C or better in CHEM 115 and C- or better in 2 of the following courses:

PHYS 111, PHYS 121; PHYS 220, PHYS 230, or PHYS 240; MATH 226, MATH 227

****Upper Division Requirement includes 3 – 5 units selected from**

BIOL 502 Biology of the Algae

BIOL 504 Biology of the Fungi (4)

BIOL 514 Plant Taxonomy (5)

*****Upper Division Requirement of 4 – 7 Elective units: obtain approval from major advisor before taking elective classes.**

Elective courses include courses from the alternates not used in fulfilling the requirements listed above, or any other upper division biology courses not specifically excluded for major credit, or any graduate course in biology.

This is a RECOMMENDATION only. It is designed so that two majors science classes are taken each semester (except in Year 4). It is certainly possible to take three science courses, if you can manage your time appropriately. Check the prerequisites of courses to see if you can take a course earlier in this scheme. Also, note that there is flexibility in the lower division requirements so that it is possible to schedule physics or calculus during the 3rd or 4th year—consult major advisor to customize this course plan.
