ECONOMICS 102

INTRODUCTION TO MACROECONOMICS

Economics 102 is concerned with macroeconomics— the behavior of the modern economy as a complete system. The course centers specifically on the determination of the total production, employment, and price level existing in an economy. We focus on these issues from historic, theoretical and policy perspectives. Additional topics include the role of the Federal Reserve System and the federal government as policy makers, the international economy and current issues in international macroeconomics.

Required reading
Web based articles: Additional reading material for the course will be assigned throughout the semester and available as downloads on the Moss website: http://online.sfsu.edu/~jgmoss/

Course Evaluation and Grading Policy: There will be 4 exams throughout the course. The exam dates are listed below. Each student must take all 4 exams, however in calculating the final class grade the lowest test score will be dropped. All students must take all four (4) exams to pass the course. Your grade will be based on the average of your exam scores.

The exams will be based on the reading material and the material presented in the class lectures. Students are responsible for all of the materials presented. Class attendance is necessary to learn all of the course material.

Homework: Optional homework will be assigned throughout the semester.

Optional Student Extra Credit Assignment: “Economics in the News.” Students who wish to do a written/oral assignment as extra credit should identify an economic issue/topic currently being discussed in the media/press. Students should find 5 news sources (material from newspapers, periodicals, and the internet or journal articles) on that topic and write a summary (4-5 pages) of the news sources, and present this summary to the class. The written summary and the news sources will be turned in on the day of the presentation. Students who wish to do this assignment should indicate their interest to the professor by October 23, 2012. A date will be assigned at that time. Both the written and the oral portions of the assignment must be completed to receive credit. If completed, this assignment will count as 10% of the grade, reducing the exam portion to 90%. If you choose this option, your grade will be based on a weighted average of the scores.
Exam Dates
Exam 1 – September 20, 2012
Exam 2 – October 18, 2012
Exam 3 – November 13, 2012
Exam 4 – December 13, 2012

Class Policy on Exams

Students must take all exams to pass the course. There will be no make-up exams. Please note dates of exams.
