Pokémon was created by Satoshi Tajiri in 1996, and has since become one of the most successful franchises in the world. Throughout the years, many generations of Pokémon have emerged, but the first was originally released in 2006. This first generation of Pokémon characters is known as the Original 151, and has since become one of the most successful generations in the franchise.

The Original 151 is a list of 151 Pokémon that were released in the original releases of the Pokémon games, which were all released in 1996. This list is often referred to as the "Original 151" because it was the first list of Pokémon that was released to the public. The Original 151 is often considered to be a classic list of Pokémon, and has been the inspiration for many other lists of Pokémon that have been released since.
